

## From Terminal Cancer to Terrific Health

**"You are terminal. There is nothing else we can do to cure you."**

What would you do if you heard these words?

In June of 1999, I was given no hope by the medical community for my **nonhodgkins tcell lymphoma**. Shocking news to hear, that after 3 years of the best cancer treatments known to the medical community, **there was nothing left to try to cure my disease.**

I had followed my doctors' advice and had gone through various tortures trying to control the cancer that was threatening my life.

Here is a brief list of my cancer ordeal:

- \* Signs of heart failure, kidney failure, and liver failure
- \* Cancer found in my bones and all my organs (Stage 4 - there are only four stages)
- \* Fevers as high as 105.4 degrees
- \* Removal of my spleen
- \* Night sweats and day sweats
- \* "Gallons" of chemotherapy and huge amounts of steroids
- \* Extreme nausea and stupor from the toxins used to "treat" my body
- \* Bone marrow/stem cell transplant
- \* Loss of hair, weakened eye site, loss of weight, wasted muscles and muscle weakness, loss of feeling in my fingers, painful sores in my mouth and throat.
- \* With My Immune System Severely Compromised And Cancer Winning The War, The Doctors Offered No Hope
- \* Chemotherapy was killing me as it attempted to kill the disease.

At this point, I knew that I needed to find a way to regain my health. I began to explore health alternatives by learning everything that I could about natural treatments for cancer. I read books and spoke to various health practitioners and especially cancer survivors.

Since cancer had devastated me financially, my first question of these health experts was how to use my limited monetary resources for maximum gain.

## From These Interviews With Health Experts I Discovered 5 Simple Steps To Maximize Health And Achieve Victory Over Sickness

- \* **DETOXIFY** your body to remove normal acidic waste products accumulated daily, plus remove toxins accumulated in your body from your environment, prescription drugs, unnatural foods and from the "normal" process of aging. Detoxifying removes the stress from having to deal with toxins and lets your body focus on rebuilding health.
- \* **HYDRATE** your body; this is basic to maintain or regain optimum health.
- \* **OXYGENATE** your body; since cancer and most other illnesses cannot survive in an oxygenated environment.
- \* **ALKALIZE YOUR BODY PH** - from acidic to alkaline pH, because cancer and many other illnesses cannot live in alkaline conditions. Alkaline is the "normal" state of healthy persons.
- \* **ENHANCE YOUR IMMUNE SYSTEM** to maximize your body's ability to fight off disease and heal itself.

In my search for low cost effective, ways to cure myself of nonhodgkins tcell lymphoma and restore my health, I discovered (among other things) the benefits of ionized alkaline water.

"How Ionized Alkaline Water Addresses These 5 Simple Steps For Assisting The Body To Regain Health And Vitality"

- \* **DETOXIFICATION** Ionized Alkaline Water helps to naturally flush toxins and acidic waste from your body and is a powerful antioxidant. Water is one of the best sources for detoxification.
- \* **HYDRATION** - during ionization your alkaline water filter forms your water into microclusters that are more easily absorbed at the cellular level thus "super hydrating" your body.
- \* **OXYGENATION** Ionized Alkaline Water makes more oxygen available to your cells than distilled, reverse osmosis, filtered only, bottled or tap water. Cancer doesn't thrive in an oxygenated body!!!!
- \* **ALKALIZE YOUR BODY PH** - Alkaline Ionized Water will help to optimize your body's pH. You could try to achieve an alkaline state with foods but alkaline water will turbo charge your efforts. As a result, it enables your body to better absorb and utilize nutrients, minerals and supplements.
- \* **ENHANCE YOUR IMMUNE RESPONSE** - All of the above allow your immune system to respond more appropriately and rapidly to it's many daily challenges.

**I generally drink 80 ounces of 8.5 to 9 pH ionized alkaline water along with at least 3/4 teaspoon of Celtic sea salt in my diet each day"**

If you are like most Americans, your body needs more water. Why not drink the best tasting water which is, also, the best water for your body?

Since my death sentence, pronounced by the medical community, I have gone from a terminal cancer patient to a terminal cancer survivor. My body shows no signs of non hodgkins tcell lymphoma.

"My health and vigor have returned!!!!"

I believe **ionized Alkaline Water has been a major contributor to my surviving cancer** and to my regaining and maintaining my good health. It has, in fact, replaced (or allowed me to cut down on) many expensive supplements that I used to take
